

STEINHOFF

Steinhoff was founded in 1908 and is one of the world's leading manufacturers of forged hardened steel rolls. A thoroughly trained and experienced workforce, modern equipment, extensive know-how in roll manufacturing and permanent R&D activities ensure a product of first class quality. Our rolls are in operation at many renowned steel and non-ferrous mills throughout the world. Willingness of our customers to place repeat orders with us is the best proof of our excellent product quality and level of technical service.

Steinhoff – There is no alternative to quality

Key figures:

Order Intake exceeding 30 Mio EUR
Produced quantity in excess of 2000 rolls

Your benefits:

- Uniform hardness along the entire barrel with a depth up to 50mm on the radius
